Security & Screen Doors

Clearview & Restrictaview Security

Clearview & Restrictaview systems have been put to the test to pass all Australian standards. These tests are designed to simulate an intense attack using force to gain entry through your security screen door. The Restrictaview Security door is a limited vision mesh restricting peoples view looking inside your home.

No longer do you need to look thru bars or similar obstructions that spoil your view. Take advantage our superior mesh protection and enjoy the finest in security screens. The anti corrosive mesh is provided with a UV protected coating using advanced coating processes to ensure clear, long lasting looks.

Sentinel & Premier Screen Doors

Finding the right balance between appearance and performance is not always easy. Doors Blinds & Shutters wide range of designs and proven quality ensure security requirements for any home can be met. All products are custom made to enhance the design of your home. All Diamond Grille Doors are available with the option of Hinged & Sliding and are available with a number of different screenings, ideal if added privacy is required. One Way Mesh allows you to see out through your door at the same time as reducing the visibility into your house from the outside.

- ✓ Deadlocking
- ✓ Automatic Closer*
- ✓ Secure-safe Hinges
- ✓ Weather Seal
- ✓ Professionally Installed

Ziptrak® Blinds

Connect with the outdoors

Ziptrak® outdoor blinds allow you to control airflow, light and temperature whilst remaining connected with nature.

Relax and indulge in your own private retreat.

- *The trusted solution for outdoor protection*
 - *Robust design and materials*
 - *Australian Owned and Invented*
 - *Versatile installation options*

Ziptrak® blinds connect your indoor and outdoor environments into one harmonious space.

Centre-Lock-Release

Ziptrak® blinds have locking mechanisms which allows the blinds to be locked when fully down, providing a secure hold, even in windy conditions. With our unique Centre Lock Release you can unlock both the left and right locks simultaneously from the centre. Yet another remarkable and intuitive solution that makes outdoor entertaining a pleasure.

Up to 6 metres wide

Ziptrak® outdoor blinds can be up to 6 metres wide, and 3.5 metres tall. The system will automatically include larger, stronger and additional components that make a 6m wide blind as robust and easy to lift as a 3m wide blind. If you're looking to cost effectively cover a large opening, Ziptrak® offers unbeatable quality and value.

No zips, cords, ropes or wires.

The Ziptrak® spring-balanced system makes zips, cords, ropes and wires totally redundant. The unobtrusive design subtly integrates into your area and is easy to operate.

Fabric Options

Sunscreen Mesh or PVC

The blind material is available in a wide range of colours and transparencies. Control the elements, but maintain your view.

- Year-round outdoor entertaining
- Control your environment
- Privacy for your backyard or balcony
- Spend less time cleaning

Outdoor Blinds

Bring the outdoors in with the exclusive Doors Blinds & Shutters outdoor alfresco solutions. ALFRESCO LIVING makes your outdoors indoors with an Alfresco designed patio blind for your home. The addition of outdoor blinds guarantees even more enjoyment all year round.

Invite your family and friends over and enjoy the extra space and all year weather protection rain, hail or shine. Every day is a perfect day with your very own outdoor living area. You'll never have to cancel a party again!

Patio Blinds

Protection from the elements can be achieved with the installation of quality patio blinds. Available in a wide range of colours that can only enhance your outdoor setting the choice of sidewinder operation for ease of control is a valuable addition and provide years of hassle free use.

Mesh & Canvas Awnings

Stay cooler in the summer and warmer in winter with the addition of awnings installed to your home. The choice of either canvas, acrylic or mesh materials they are an answer to all your requirements. An extensive range of colours and designs make it a breeze to compliment the decor of your home. A practical and stylish outdoor blind designed to reduce the heat within the home.

KUMO surpasses the frontiers of design. Pure style, no visible screws, no plastic used on the on the side covers.

KUMO can reach a 6 metres width with a 3,15 metres projection. It is a total cassette that guarantees a hermetic closure of the awning in any width and projection, thanks to the particular shape of the terminal bar. This preserves the fabric and the aesthetic line over time. KUMO can be installed on wall or ceiling. Since its particular hanging system hides the wall fixing plate, KUMO seems to naturally come out of the house wall as it were a structural element.

Internal Blinds

Roller Blinds

Easy to operate, roller blinds are the ultimate functional blind with more than 200 fabric selection in our roller range. From modern to eclectic mix of textures and also a wide selection of plains, whites and neutral shades.

The blinds fit within the frame of the window which keeps them in place when the window is open or closed. They're easy to pull up and down and can be positioned at just the right level to allow the perfect amount of daylight in.

Roller blind fabrics are designed specifically for strong sun and damaging ultra violet light making them extremely hardy and long lasting. Our fabric collection incorporates a vast array of sheer, translucent and blackout fabrics in both plain and textured finishes.

Roller blinds allow you to combine the functionality of two different fabrics in the one roller blind system offering flexibility to adjust both light levels and night time privacy in the application.

Roman Blinds

The Doors Blinds & Shutters Roman Blind offers a modern contemporary design to compliment any interior. Our Roman Blind offers a smooth premium chain drive system with increased load capacity and a spline fabric attachment reducing light gaps.

Sewless roman blinds - have pocketed panels but with no stitching joins.

Visionwood Venetians

Visionwood Venetians are a great alternative to natural wood particularly where the style and functionality of painted timber Venetians is required but durability and budget constraints are also a consideration. The 63mm slat is a great alternative for budget conscious customers wanting to achieve the look of Plantation Shutters.

Internal Blinds

Vertical Blinds

Doors Blinds & Shutters Absolute Verticals allow you total control over your level of heat and privacy while regulating just the right amount of light into your room.

Our European designed tracking system adds an ultra modern sleek design to the blind and is well suited for both casual or formal areas of your home while still being a great option for commercial applications. The Absolute track also has a unique slat release system to allow the blades to be moved left or right for easy window cleaning.

Panel Blinds

Designed as a modern alternative to Vertical Blinds, the Doors Blinds & Shutters Panel Glide combines the elegance of curtains with the functionality of blinds. The fabric panels move effortlessly through multiple tracking channels with the use of a smooth operating wand that eliminates the need for chains and safety devices and enhances the sleek elegance of this simplistic blind.

When open, the panels stack neatly behind each other, sliding them closed creates a complete fabric display where the panels overlap to eliminate light gaps and can be used to control privacy and light filtration. Choose matching fabric for Rollers or Romans to create a consistent décor throughout the home.

Honeycell

Create a striking look with a combination of design and the exceptional structure of Honeycell fabrics.

25mm Honeycell is a patented cellular blind available in both blackout and light filtering. The Honeycell traps air within each cell creating an effective insulation barrier.

The metallised lining within the blackout cells provides superior insulation keeping the home warmer in Winter and cooler in Summer. With no visible holes this also makes this blind an ideal option where complete room darkening is required such as bedrooms and theatre rooms.

The neutral colour palette of the light filtering blind adds a lovely ambience to your décor while still allowing light, privacy and insulation for your home.

Curtains & Sheers

Doors Blinds & Shutters comprehensive new signature curtain fabric collection features 12 of Australia's most popular sheer fabrics and a neutral blackout fabric.

From super sheers, voiles, elegant linen looks to linen blends, it's easy to achieve the perfect combination of privacy and light protection needed for your next interior project. Our complimentary range of curtain tracks are available in white, silver anodised and black colours.

We also offer Somfy's Glydea™ motorisation solutions for higher-end projects. Motorised curtains are fast becoming the standard for premium homes, luxury apartments, quality hotels and conference venues.

Designer Track

Residential Track

Commercial Track

Selecting the right curtain tracking is an important decision from both a practical and aesthetic perspective.

Curtain tracks offer a minimalist profile, smooth operation, and adapt for a wide variety of curtain heading styles.

Doors Blinds & Shutters Residential track is a timeless classic and complements traditional architecture – Available in white, black and anodised silver.

Plantation Shutters

Australian Made PVC

Doors Blinds & Shutters PVC **Australian Made** Shutters offer a classic timeless look that enhances any décor.

Our PVC shutters come in solid PVC with an aluminium core for stability and carry a 10 year warranty. They are low maintenance and allergy free and allow excellent control of light and airflow. PVC Shutters also offer privacy and are a great insulator assisting with the reduction of energy costs.

Doors Blinds & Shutters PVC Shutters are excellent for high moisture areas such as bathrooms and kitchens and are easily cleaned and maintained.

Fusion H Plantation Shutters

Modelled on heavy construction and civil engineering “universal” beams, our incredibly strong H-shaped aluminium insert provides increased strength and long lasting performance in all our shutter louvres. In addition, all of our Fusion PLUS panels are fabricated with solidly constructed mortise and tenon joints, reinforced with the highest strength industrial adhesive then sealed with stainless-steel and weather-resistant screws to insure a lifetime of longevity that won’t crack, sag, warp or split over time.

Basswood Plantation Shutters

All of our Sovereign Basswood Shutters are lovingly crafted from A-Grade American Basswood (*tilia americana*), which is a native hardwood harvested exclusively from the east coast forests of North America. We use this hardwood timber Premium A-Grade American Basswood for its light weight, unmatched stability, splendid colour/grain uniformity, its remarkable resistance to warping and its reliable stability when cut, shaped and dried.

Aluminium Plantation Shutters

Aluminium is both an incredibly strong and reliably durable metal especially given its remarkably light weight. When successfully extruded into our shutter blades and frames – which are also entirely moisture sealed and impervious to insect attack, aluminium shutters are the perfect solution for all indoor and outdoor applications making it ideal for wet/rainy conditions.

Roller Shutters

Manual Roller Shutters

With our range of roller shutters you can select the type of operation that will best suit your home and your budget. Winder operation is easy to use and is perfect for average sized windows such as in the bedroom or kitchen in your home. The winder control operation provides an affordable option for average sized windows in your home. The winder control system is designed for shutters up to 4.8m²

Electric Roller Shutters

Motorised operation for roller shutters is the ultimate solution in ease and efficiency. Motorised operation provides convenience that can be controlled by the simple press of a button. Designed for all sizes and applications. If your window is over 4.8m² then the operation for your roller shutter must be electric. A range of different switches and remote controls are also available.

FEATURES AND BENEFITS.

Up to 40% Energy Savings on Heating & Cooling - Blockout 80% of Heat & Cold
Security/Peace of Mind 62% Noise Reduction - Insulating Qualities - Light Control
100% Privacy - Internal Controls - Airflow Control - Value For Money

Ozroll Drive System

The OZ Drive system is a low voltage battery operated drive system that is not reliant upon mains power. With operation at the touch of a button this unique system offers a cost effective alternative to current control options with many other additional benefits including a more efficient installation. Each motor is equipped with a low voltage cable which is connected directly to the back of the wall plate or to the fixed switch allowing for power to be generated through the motor. Both the portable controller and the fixed switch are equipped with re-chargeable batteries that can be easily charged via a number of convenient options.

Roller Shutters

55MM widespan

This roller shutter range is made with a precision roll formed roller shutter profile and is suitable for many widespan applications

- Entry Level Security for Factories, Warehouses, Clubs, Pubs & Hotels, Restaurants, Pharmacies & Sports Complexes..

77MM WIDESPAN

The 77mm Widespan Roller Shutter range is made with a strong precision roll formed roller shutter profile and is suitable for many widespan applications up to 5900mm, including residential & commercial garage doors and commercial windows, shop fronts & doorways.

It is an ideal roller shutter application for entry level security for factories, warehouses, clubs, pubs & hotels, restaurants, pharmacies & sports complexes.

EASYVIEW

EasyView™ is a strong roller shutter system constructed of an extruded aluminium and transparent UV resistant polycarbonate profile which provides added security and permanent views of the outdoors.

Suitable for a wide range of domestic applications, EasyView™ is ideal for outdoor patio, verandah and pergola areas providing permanent outside views in a modern and sleek design. EasyView™ provides an affordable way of creating that extra room, while protecting families from the elements in both Winter and Summer.

Neo Smart App

This app is extremely versatile and the easiest to setup that we have seen. Control your motorised products individually, or by area, or the whole house at once from anywhere in the world with an internet connection. Or just schedule your daily use to happen automatically. Simply buy the link box, download the app for either Android or Apple and you're off and running. The Alpha-Neo app is compatible with every Alpha remote control motor that has ever been sold and all of our current lineup including DC products.
